

## SIZE AND FINISHED MEASUREMENTS

Please carefully measure your finished item to help our supporters bid more confidently. All measurements should be in inches.

**Women's and Men's Clothing:** This year we are publishing size charts and asking you to provide both the *finished garment measurements* and *suggested size(s)*. To determine the suggested size, compare your finished garment measurements to the charts below, which are based on the actual body size plus a small tolerance (1/2-1" depending on size). Measure sleeves from center back. Unless your garment is made of stretch knit and you intend a close fit, your finished measurements should be larger than the minimums below, from 5-10% on average fit to 20% or more for oversized. Under length, indicate the appropriate dimension, e.g., inseam for pants, overall length for coats. Please be sure that the entire garment is proportionate (e.g., armholes are large enough).
